

P.E. LABELLERS

Innovation and experience in manufacturing of labelling machines

Never-ending Passion for Innovation

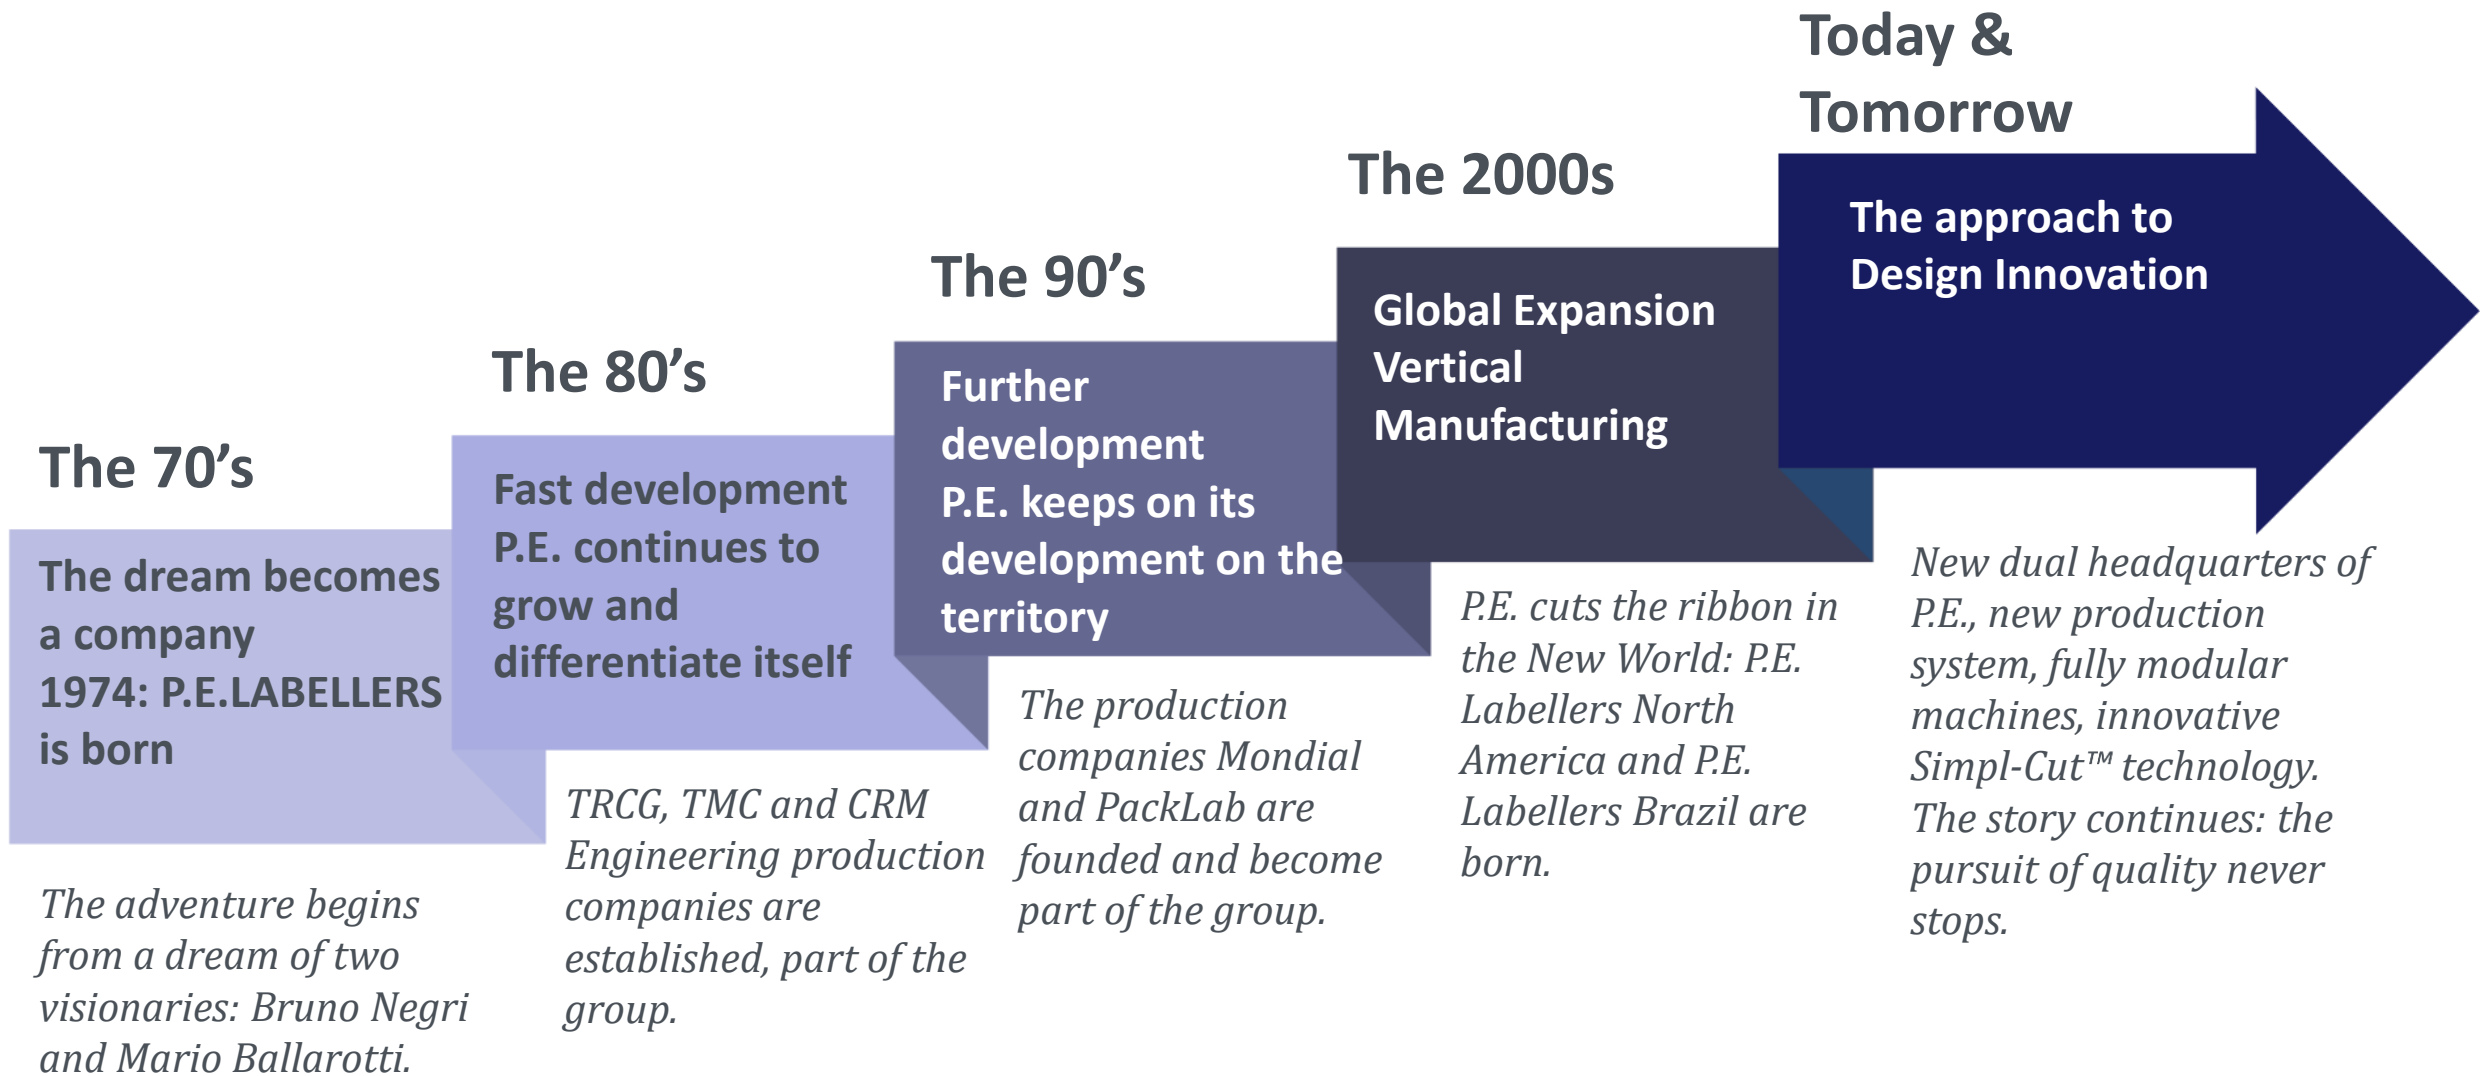

Exclusive distributor
in Poland

01

Who we are

Our history

Highlights

P.E. LABELLERS™

Distinctive Features

VERTICAL PRODUCTION

8 Excellence Design & Manufacturing Centers for Labelers & Key Labeler Components development

R&D INVESTMENTS

R&D investment is part of our culture, a continuous Innovation process

SMART & LEAN DESIGN-BUILD PROCESSES

Shorten lead times, enhance delivered quality, increase Customer Satisfaction

UNIQUE LABELING SOLUTIONS

Wide variety of innovative solutions help P.E. configure each labeller to meet customer requirements and expectations

SINGLE-MINDED FOCUS ON LABELING

Designs Innovation approach focused on high-performance labeling, independent of served markets

PE UNIVERSITY COMPANY ACADEMY

Company Academy for technical training at different levels, also available online.

Company Organization

ITALY – Headquarters & Production Sites

- P.E. LABELLERS S.P.A.
- Plant PackLab
- Plant Mondial
- Plant CRM Engineering
- Plant T.R.C.G.

NORTH AMERICA – Production Sites

- P.E. LABELLERS NORTH AMERICA (Cincinnati - OH)

SOUTH AMERICA – Production Sites

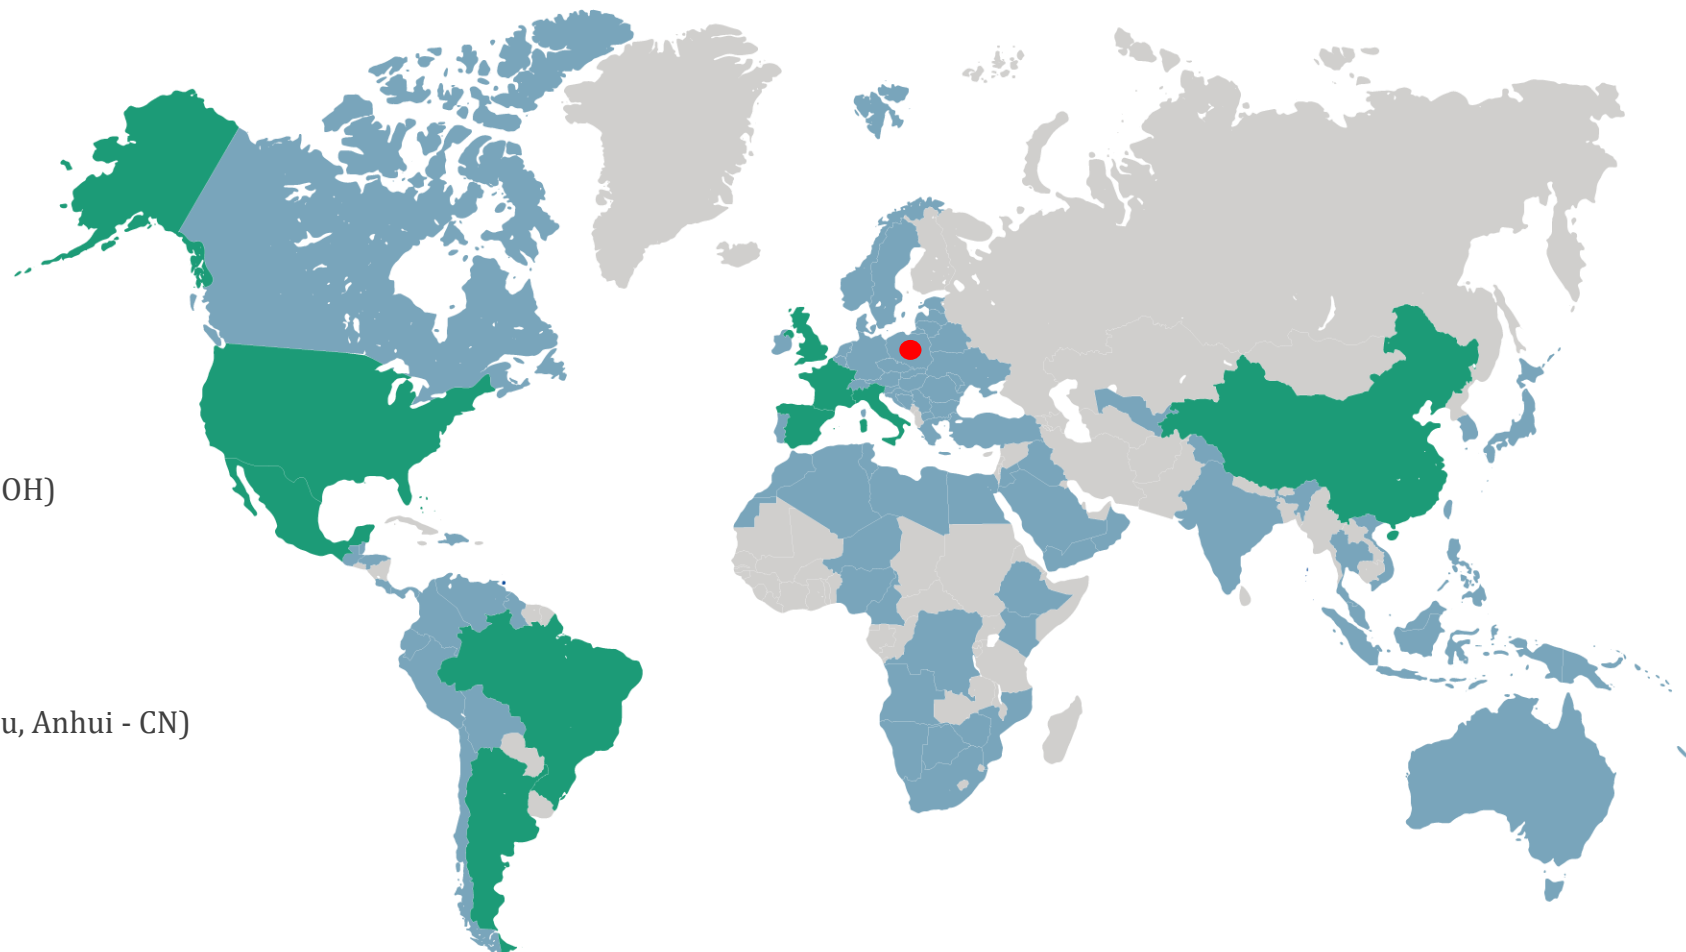

- P.E. LABELLERS BRAZIL (San Paolo - BR)

ASIA – Service Center

- PROMACH PERFORMANCES SERVICE CHINA (Wuhu, Anhui - CN)

NORTH AMERICA – Service Center

- P.E. LABELLERS NORTH AMERICA (Corona - CA)

EXCLUSIVE DISTRIBUTOR IN POLAND

Local service
Spare parts

PRODUCTION SITES & DIRECT SERVICE

8 Excellence Production Centers

AGENCIES & SERVICE CENTERS

76 agencies worldwide
90+ Service Experts

P.E. Labellers S.P.A. – Italy

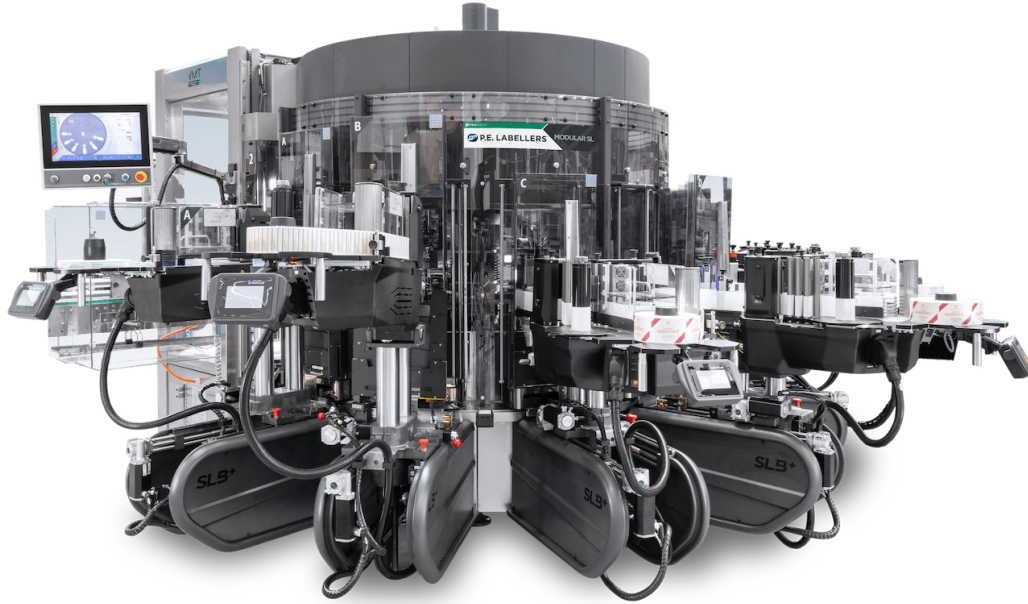

P.E. Labellers Headquarter
Mantova - Italy

Our labeling solutions

Modular Solutions

Modular SL

Multi-configuration and multi-technology solution.

A single machine, available in seven different diameters, fully modular and ergonomic: Modular SL can accommodate mobile or fixed labeling units, interchangeable with each other and replaceable in a few steps, with all application technologies integrated. Production speed up to 72,000 BpH.

TOTAL FLEXIBILITY

1. Pressure sensitive and cold glue technology

2. Applications of front and back labels, neck labels, I, L, and U tax stamps, wrap-around labels

3. Label material in paper or PVC

4. Cylindrical and/or shaped containers

5. Special and optional customised solutions

Fully modular and ergonomic labeling solution based on the concept of **Total Flexibility**.

Modular SL can be equipped with all our labeling stations:

- **Simpl-Cut® unit**
- **Pressure sensitive FA-ST unit**
- **Pressure sensitive FA-ST unit with automatic reel junction**
- **Cold glue unit**
- **Hot glue unit**

Fixed Solutions

Simpl-Cut®

A completely innovative solution with a cutting and pasting system that revolutionizes the traditional principles of Roll-fed machines.

It applies wrap-around and shrink labels with pre-adhesive technology, allowing you to switch from one technology to another in less than a minute.

Production speed up to 82,000 BpH.

Simpl-Cut® is available both as a standalone machine and as an independent station mounted on a trolley, to be paired with a Modular SL.

SAVINGS CALCULATOR

1. Only one drum for three operations

2. Hot melt applied before cutting

3. Innovative Cutting System

4. Up to 6 divisions on the same drum

5. No-stress label management

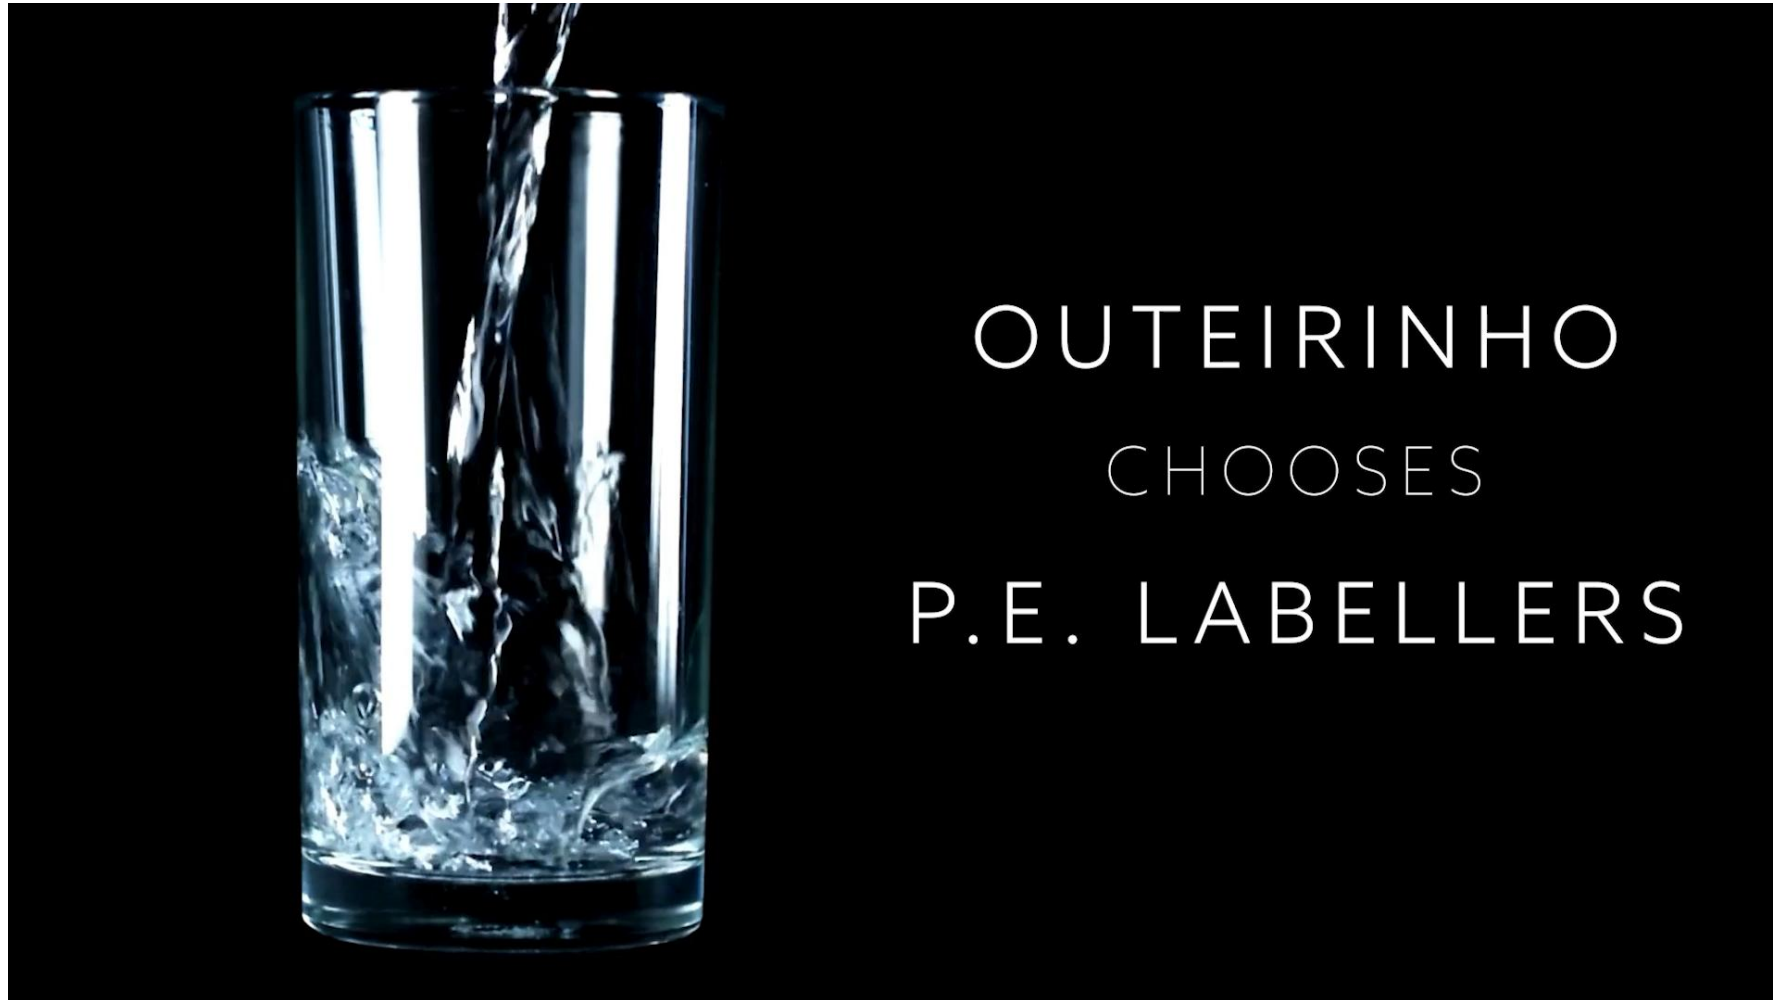

6. Standard ergonomic layout

Completely innovative labeling solution, with cutting and gluing system that reverses the traditional principles of **Roll-fed machines**.

Simpl-Cut offers:

- **Greatest possible efficiency**
- **Total Ergonomics**
- **Significantly less maintenance**
- **Benefits of pre-glued technology**

Fixed Solutions

Aurora 5.0

Shrink Sleeve and Tamper-Evident Band Applicator, offering flexibility for five different shrink applications.

The format change for containers is quick, repeatable, and tool-free.

Aurora 5.0® applicators can be equipped with steam or air/electric shrink tunnels.

Production speed up to 30,000 BpH

AURORA 5.0 BENEFIT CALCULATOR

1. Fast, repeatable, toolless format changeover

2. Ergonomic layout for easy inspection

3. Servo-driven cutting head

4. Integrated orientation system

5. Drastically reduced maintenance

Easy to install with a drastic reduction in maintenance, Aurora 5.0 was designed to **maximize performances** and **reduce management costs**.

Simpl-Cut offers the flexibility to apply **five different sleeve labels**:

- **Full body sleeves**
- **Full body over-the-cap sleeves**
- **Partial body sleeves**
- **Tamper evident bands**
- **Multi-packs**

PE LABELLERS™

Aurora 5.0
P.E. Labellers sleeving solution

A photograph of a modern, multi-story building with a dark, textured facade. The building features large windows and a green roof with various plants. A large, bright green arrow points from the left side of the image towards the center, where the text "THANK YOU!" is displayed in white, bold, sans-serif capital letters. The building is surrounded by greenery, including trees and shrubs, and a paved walkway leads towards the entrance.

THANK YOU!
